
A. Score separation (targets vs decoys)
before
after
Density
Score
Decoy
Target
B. Decoy-support index Dα^-1/2 vs α
Dα^-1/2
α (log scale)
After (mokapot q-value)
After (q from mokapot score)
Before (q from before score)
C. Local decoy support Dα,win vs α
Dα,win
α (log scale)
D. Accepted targets vs α
accepted targets
α (log scale)
E. Accepted target-set overlap before vs after
Jaccard
α (log scale)
Before vs After (mokapot q-value)
Before vs After (q from mokapot score)
F. Decoy fraction by q-band
Decoy fraction
Mean q in band
